

Craig hails from Kemptville with his wife Leigh and two children Myles and Reese, where he co-owns and operates Templeview Farms Inc. with his father, John. The dairy farm includes a milking herd of around 65 cows in a sand bedded, 3-row, robotic facility. The majority of their 400acre land base is used to grow cereals/forages for the dairy. Additional land is cash cropped. They currently fill 1.8kg of butterfat/cow/day with a herd final score averaging 86pts. Craig is a former 4-H Judging Club leader and is currently more involved with the industry from a milk producer standpoint and as a judge at fairs/shows. He began judging as a 4-H member, judging highlights included representing Ontario at WDE and being an inter-collegiate champion twice. More recently he enjoys the opportunity of judging 4-H regional and county shows as well as Breeder's Cups.
